

B&P SLIDING KEG HOOK TRUCK

B&P MANUFACTURING
Engineered Delivery Products

Liberator

SAFETY FIRST

Securely stack 2 or 3 kegs without worry of them tipping over or rolling off.

IMPROVED ERGONOMICS

Easy to break back, even with the weight of two full kegs.

BETTER MANEUVERABILITY

The narrowest hand truck in the industry with optional narrow aisle design. Much easier to deliver in tight coolers, down narrow aisles, and through doorways.

INCREASE EFFICIENCY

Drivers can deliver faster when their load is held securely in place.

NEGOTIATE STAIRS WITH EASE

Optional stair climbers make stairs far less challenging.

EXCLUSIVE 2-YEAR WARRANTY!

HANDLES

Lots of handle options available, including a line of heavy duty, heat treated styles.

FRAME

The B5MK frame features curved cross members and an adjustable sliding keg hook - ideal for any size keg or case. The hooks on the adjustable arm hold the kegs to the truck even when stacked.

NOSE PLATE

Steel nose plates slide under kegs with ease. We offer a variety of other sizes and materials.

WHEELS

D16 Pro-Flex 8" wheels are lightweight and come with a 2-year warranty. We offer many other 8" and 10" wheels to fit any application.

SUGGESTED TRANSPORT CONFIGURATIONS:

- ▶ Two 1/6 barrel kegs on the bottom and one 1/6 barrel or 1/4 slim barrel keg on top. (Must use an 18" wide nose plate.)
- ▶ One 1/4 slim barrel keg on bottom and one 1/4 slim barrel or 1/6 barrel keg on top.
- ▶ One 1/6 barrel keg on bottom and one 1/6 barrel keg on top.
- ▶ One 1/2 barrel keg on bottom and one 1/2 barrel keg on top.
- ▶ Single or double stack cases instead of kegs.
